☐ User Defined Batch File Configuration

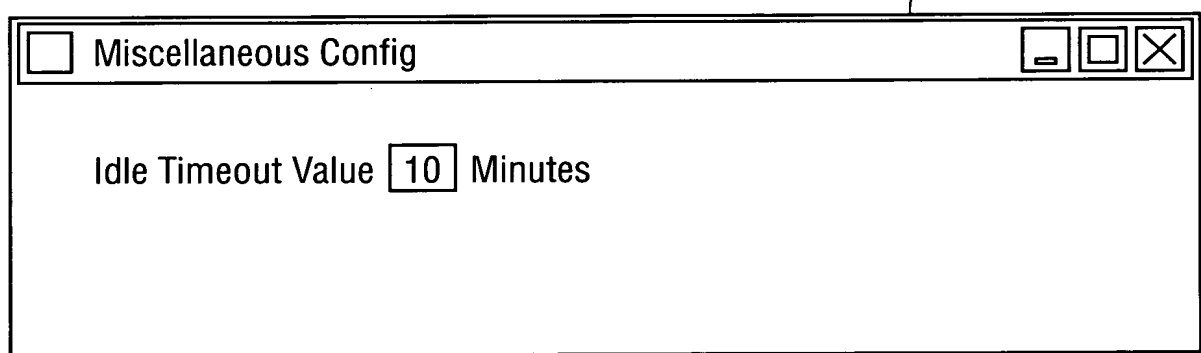

Inhibit File:  
C:\Sample\Disable.bat

Uninhibit File:  
C:\Sample\Enable.bat

This is a Windows-style dialog box titled "User Defined Batch File Configuration". It features a title bar with a checkbox and standard window controls (minimize, maximize, close). The main area contains two labels, "Inhibit File:" and "Uninhibit File:", each followed by a text input field. The first field contains the text "C:\Sample\Disable.bat" and the second field contains "C:\Sample\Enable.bat".
